

Site Details

Site name:		Transect width (circle one of these):	2m or 1m
County:		Principal Habitat:	
Vice County:		Secondary Habitat:	
Central Grid Ref: (e.g.SN215502)			
Recorder name & contact details:			
Site owner/contact for access:			

Survey Details

Please Indicate Method Used (1=complete search, 2=sample transect, 3=search patches only):						
Date of visit	Patch/field ref (if applicable)	Number of occupied webs found	Length of transect (m)	Area searched (ha)	Area of suitable habitat (ha)	Population size/estimated pop. size
TOTAL						

Nb. To calculate the area searched (ha), multiply the transect length by transect width (2m) then divide by 10,000. To calculate the estimated population size, multiply the number of webs found by area of suitable habitat(ha) then divide by the area searched (ha).

Habitat Quality Observations

Key Habitat Feature	Observations (please tick)				
	Widespread & abundant	Frequent (in low density all across the site)	Patchy (locally abundant)	Patchy Sparse	Rare
Devil's-bit Scabious					
Scrub					
Rushes					
Other (state)					

Habitat Management Observations

Please tick relevant site management information:								
Vegetation Height		Grazing		Burning		Cut/mown		Unmanaged
Uniform short (<8cm)		Cattle		Whole area		Most of area		
Variable (8- 25cm)		Ponies		Half		Half		Unknown
Tussocky (>25cm)		Sheep		Patches		Strips		
Other habitat/management observations:								

By submitting these records you confirm that they contain data that you have collected, give permission for the records to be used for research, education and public information, and to be made generally available for re-use for any other legal purpose under the terms of the Open Government Licence (<http://www.nationalarchives.gov.uk/doc/open-government-licence/>), and agree that your name will be associated with the record.

Nf3: MARSH FRITILLARY LARVAL WEB MONITORING FORM

Refer to guidance note Ng2 for details of the recording method

Site Map

Copy of OS map at 1:10 000 or equivalent showing scale, 1km gridlines and boundary of suitable/or occupied habitat marked. Mark the transect route and indicate the location of occupied larval webs (x).

Are there previous records of Marsh Fritillary adults or larvae at this site?
(Please include dates, numbers of adults or larvae recorded and recorder if not previously submitted)

Many thanks for undertaking this survey. Please return completed forms to Butterfly Conservation.
